Chair Campsall called the Public Hearing to order at 6:30 p.m.

Chair Campsall acknowledged that this meeting is being held on the Traditional Territory of the Secwepemc People.

Chair Campsall stated that the purpose of the Public Hearing is to receive public input regarding Zoning Amendment Bylaw No. 1382-2021.

Chair Campsall outlined the process for receiving public comment to the proposed Bylaws:

By-Law No. 1382-2020 Zoning Amendment

Zoning Amendment By-Law 1382-2021 proposes the following amendment(s):

- (1) That Section 8.3.13 Specific Use Regulations is amended by adding:
 - a) Despite Section 8.3.3, home industry comprising a printing shop, and manufacturing light impact comprising a sign shop, are permitted as an accessory permitted use on Lot 1, Plan 14723, District Lot 31, Lillooet District, also known as 182 Evergreen Crescent.
 - b)

There were five written responses received. The written responses were read aloud and form part of this report. All five written responses were in opposition to the bylaw.

1. Graves, 264 Evergreen Crescent
2. Lace, 215 Evergreen Crescent
3. Boyson, 225 Evergreen Crescent
4. Parsad, 160 Pine Place
5. Perry / Crellin, 195 Evergreen Place

There were two requests to be on the speakers list:

1. Lucia Medeiros, 180 Pine Place. Opposed.
Mrs. Medeiros agreed with the previously read aloud letters. Her concerns were traffic, depreciation of the neighborhood, losing the residential feel of the area, many available commercial spaces in town, and the point that the applicant is a renter.
2. Donna Barnett, South Cariboo Chamber of Commerce. Opposed
Ms. Barnett commented that while the Chamber of Commerce is in support of business, business should stay in the commercial zones. Business in commercially zoned properties pay higher taxes, to allow this business in residential would be unfair to other businesses. She was also concerned about what kind of precedent this would set for future businesses trying to save money and leave the commercial zones.

The applicant, Jil Freeman had no comments to make but was available for questions. Councilor Fossum asked the applicant if the owner of the property resides on the property as well. The applicant answered that the owner does also reside on the property. No other questions were asked of the applicant.

Mayor Campsall called for further input from those present – no further comment was forthcoming.

Chair Campsall called for additional input from the public. With no further input forthcoming, this Public Hearing for Zoning Amendment Bylaw No. 1382-2021 is now adjourned at 6:45 PM

I hereby certify this report to be correct:

Chair

Corporate Officer

Mayor and Council of the District of 100 Mile House

Public Hearing:

RE: Proposed amendment to the District of 100 Mile House Zoning Bylaw No. 1290, 2016

Subject property: Lot 1, Plan 14732, DL 31, Lillooet District, located at 182 Evergreen Crescent

We the undersigned wish to register our strongest possible objections to this proposed amendment for the following reasons:

- The proposed amendment would allow a commercial (manufacturing) enterprise in the an R1 Residential zone. We already have an area that accepts and permits, and indeed encourages this type of usage on Cedar Avenue, which is zoned to permit a transition between the commercial nature of Birch Avenue and the Residential nature of Dogwood and Evergreen.
- We bracketed 'manufacturing' above because the application uses the reference as noted in our next point.
- The application to modify usages permitted, references on-line shopping and off-site production of the basic sign, with work completed in the back-yard shed. Such may be the initial approach, but future growth may make this approach untenable and require upgrading and expansion.
- The application refers to lower overhead cost because it is located in a Residential Zone. Is this a way of reducing overhead cost because taxation rates are traditionally lower in Residential Zone than in Commercial Zone? Is this fair to others in this type of enterprise who are subject to the tax rate(s) applicable to their zone?
- Most business require signage to identify their place and type of business. No mention was made in the application. What does the future hold?
- In recent weeks there has been a noticeable increase in the vehicle parking in the driveway of the subject property, if this is due to the residential nature of the dwelling, and reasonably requires this level of parking, what can we expect with a business that must have a certain level of required parking spaces?

For the reasons outlined above, we unreservedly and strongly oppose this proposed amendment to Zoning Bylaw No. 1290, 2016, and therefore:

We urge Council to carefully review this proposed amendment to the usages permitted in an R1 designated zone because this amendment has long term implications, that has the potential of under-mining the peace and quiet that we enjoy and expect to find in any Residential area.

Thank you for accepting our concerns.

Respectfully submitted by:

Regarding Lot 1, Plan 14723, DL 31, Lillooet District, 182 Evergreen Cres.

We deem our interests affected by this proposed bylaw.

Parking at this property is all ready maxed out most days, so overflow will be the street.

As frequent pedestrians we are well aware that we have no sidewalk and this will just force us farther out into the street.

We love our residential property and neighbourhood, emphasis on

RESIDENTIAL.

We have no idea if this would be the first of many business's on Evergreen but have witnessed that transformation on other streets in town.

Light Industrial, metal cutting, not for us. It is and hopefully will continue to be residential for many years to come.

We don't begrudge anyone in business trying to make it all work it is difficult. I wish them the best but in an appropriately zoned location. Not a beautiful neighbourhood zoned as a residential area.

Respectfully James and Dawna

Re: Zoning Bylaw # 1290, 2016

We have been residents of Evergreen Cres. since 1970. This has been a busy residential area for many years and continues to be that way - ALL WITH NO SIDEWALKS. With schools, parks, shopping, etc., all within walking distance, families are walking, riding bikes with children, pushing strollers – truly a family street.

Our objection would be to more traffic which we do not need, noise from the business, possible debris laying around, parking for customers (ie. will they be parking on the street or boulevards), how late will customers arrive?

We don't feel business and residential mix well.

It has come to our attention that a request has been made to ammend the zoning of property at 182 Evergreen Crescent in 100 Mile House to allow for home industry including a printing shop and sign shop. I understand that this is a business that would be operated by a renter at that address.

This area of 100 Mile House is residential. There have been a number of families who have moved in who have young children. There are no sidewalks in this area of town. We are concerned about an increase in motor traffic on Evergreen Crescent with a business operating there. There really is no space for parking along the street there either. Would people, therefore, park in the cul-de-sac (Pine Place) where there are already plenty of vehicles? Would this property remain zoned for home industry if this renter leaves?

We do not consider it appropriate to rezone a private property in this residential area of 100 Mile House.

Attention: J. Doddridge, Dir. Ec Dev & Planning

This letter is in response to the "Notice of Public Hearing" scheduled for November 9, 2021 to consider amendment of Zoning Bylaw for subject property, **Lot 1, Plan 14723, DL 31, Lillooet District, located at 182 Evergreen Crescent.**

We live across the street from the property where the addition of home industry comprising of a printing shop and light manufacturing sign shop is proposed. We are strongly opposed to the Zoning Amendment that would allow home or commercial business operations in this residential area. Evergreen Crescent is a diverse and active neighbourhood with considerable vehicle and pedestrian traffic. The subject property is near the community park entrance and a direct route to "downtown" and many seniors and young families walk along the Crescent throughout the day and evening.

We purchased our home in a residential area that borders on green space and offers a tranquil setting. The addition of commercial or manufacturing business is not conducive to a peaceful neighbourhood and would negatively impact our interests and the value of our property. The subject property has limited parking capacity and currently has a number of vehicles filling the space even prior to the addition of a business. We are concerned that this amendment will result in overflow parking along the narrow street, potentially creating risk for neighbours entering and exiting their own driveways, pedestrians, and to traffic flow. Noise is also a concern.

There are a number of streets in the community adjoining the main business area that have created commercial or business space. In addition, there are many commercial buildings within the community that are vacant. Although we respect the proponents and value their business interests, the impacts and further erosion of residential neighbourhoods like the one currently existing on Evergreen Crescent cannot be supported.

Subject: Grant in Aid – 100 Mile Senior Housing society

Administration recently attended an information session with the newly formed 100 Mile Senior Housing Society (June 2021). It was good to hear the progress the Society was making towards addressing the attainable housing needs in the South Cariboo. We would caution that “shovels in the ground” remain a future prospect now.

During the information session it became evident the Society was trying to operate sans operating funds. The Society requested assistance in identifying any possible funding sources to assist with legal fees, director liability insurance and front-end administration costs. To be clear the Society did not directly request funding from the District.

However, the District has assisted other similar organizations with start-up costs in years past, most recently the South Cariboo Age Friendly Society. Administration was of the view Council may consider providing start-up funding assistance; hence the following recommendation is provided for Council consideration.

Recommendation:

BE IT RESOLVED THAT the memo from Administration dated December 10, 2021, regarding Grants in Aid be received; and further

BE IT RESOLVED THAT the District of 100 Mile House provide start up funding to the 100 Mile Senior Housing Society in the amount of \$3,000.

DISTRICT OF 100 MILE HOUSE

MEMO

Date: December 13, 2021
To: Mayor & Council
From: Administration
Subject: Fire Engine - RFP-2021-05

BACKGROUND:

The District issued an RFP to replace Unit #202 being a 1996 Freightliner FL80 fire engine. The existing unit has 54,405 kms and 2467 hours of use. Average annual O&M costs for last five-(5) years is \$6,000+/-

Fire Underwriters Survey of Canada generally recommends replacing fire engines after twenty-(20) years of service. With changing technologies, safety enhancements and improved response capabilities this recommendation has merit. This is not a "law" by any means.

The District's intent is to put a new engine into service upon delivery. Unit #202 will be retained in inventory and made ready for use during forest fire season. The District will notify the Province that we have a unit available for this purpose. This type of opportunity would generate revenues to the District that can be used to replenish the Machinery & Equipment Reserve.

RFP RESULTS:

The RFP was issued October 15th with a closing date of November 15th, 2021.

Two-(2) responses were received to the RFP; those being from Hub Fire Engines (Abbotsford, BC) and Fort Gary Fire Trucks (Winnipeg, Manitoba). Both responses exceeded the budget value for this RFP.

The review panel were requested to look to the RFP and remove those items that we could "live without" while not compromising the integrity and intended use of the unit; paramount being the personnel safety. After this exercise an addendum was issued to both proponents requesting a new cost schedule be returned to the District no later than December 9th, 2021.

Upon receipt of the amended schedule(s) the review panel again evaluated both submissions using the RFP criteria (hereto attached). The review panel recommended the proposal submitted from Hub Fire engine of Abbotsford BC based on meeting the Departments expectations regarding price, warranty, equipment, design, service, and location of manufacturing location. The Hub proposal, inclusive of all applicable taxes, costed out at **\$ 880,393.92** With the District GST rebate the net purchase price for this unit will be slightly less than the Capital Plan estimate of **\$ 850,000**.

Delivery is anticipated to be twelve-(12) to fourteen-(14) months from date of award.

RECOMMENDATION:

BE IT RESOLVED THAT memo from Administration regarding RFP 2021-05, Fire Engine Replacement be received; and further,

BE IT RESOLVED THAT Council of the District of 100 Mile House award the RFP to supply a new fire engine be awarded to Hub Fire Engines of Abbotsford BC for the quoted price of \$880,393.92 inclusive of all applicable taxes.

R. Scott, CAO

R. Hollander, Fire Chief

2.1 EVALUATION CRITERIA

Proposals meeting the requirements will be further assessed against the following criteria. The relative weighting for each criterion is also given.

Criteria	Weight
The degree to which the apparatus design incorporates advantageous features in the opinion of the District of 100 Mile House and 100 Mile House Fire-Rescue	15%
The quality and duration of the proponent's proposed warranty(s), specifically items or components.	15%
The proponent's demonstration that the requests of the RFP have been met with high quality parts, components, design and craftsmanship.	10%
The proponent's ability to support the District of 100 Mile House Fire Department after the purchase including training, the proponent's location of affiliated authorized service centers with trained technicians, service facilities and parts relating to the maintenance of the proposed apparatus, components and equipment.	15%
Price	45%
